15.ISSUANCE OF CERTIFICATE OF NON-ISSUANCE OF HONORABLE DISMISSAL (CNIHD) AND HONORABLE DISMISSAL (HD)

Leaving the University by means of graduation is different from a student’s voluntary withdrawal from the University. Certificate of Honorable Dismissal is not issued to graduates. In lieu of this, a certification is issued stating that UPV does not issue honorable dismissal to graduates. The CNIHD is also issued to students who voluntarily leave the University not for reason of expulsion due to disciplinary action.

The Honorable Dismissal is issued to UPV students transferring to another college/school/university outside of the UP System. CNIHD and HD are issued only once.

1. Request for Use of UPV Facilities & space

(Memorandum No. IMS-2005-04-44 dated 02 June 2005). These guidelines are issued to better rationalize the use of UPV's very limited budget for Maintenance and Other Operating (MOOE), underscore the importance of good responsible stewardship in the use of University's facilities and to ensure that our fixed overhead expenses are kept within reasonable bound so that our MOOE can still provide adequate financial support for academic activities. Also, these guidelines detail the priorities in the free use of facilities, payment of fees when so warranted and availability of alternative venues with minimal charges or none.

21. Request for Ethical Clearance for Projects Involving Human Subjects

An ethics review ensures the safety, dignity, and well-being of research participants. This is also in compliance to key international and national guidelines such as the 2013 revised Declaration of Helsinki, 2016 Council for International Organizations of Medical Sciences (CIOMS) International Ethical Guidelines for Health-Related Research, 2013 Philippine National Health Research System (PNHRS) Act, 2012 Data Privacy Act, Joint DOST, DOH, CHED, and UPM Memorandum Order 001 Series of 2012, and PHREB-NCIP Memorandum of Understanding on the Ethics Review of Research involving Indigenous Cultural Communities/Indigenous Peoples as Participants. In addition, an ethics review is in response to the fact that an increasing number of journals already require information on the ethics clearance of research projects before processing project-based manuscripts for publication.
